

APPLICATION FOR FINANCING A HUMANITARIAN PROJECT

Weather site for kindergarten

Equipment:

1. Thematic stand "Sundial" with a metal support
2. Stevenson screen with metal support
3. Barometer
4. Hygrometer
5. Compass
6. Weather vane with colorful cockerel
7. Windsock with metal support
8. Birdfeeder
9. Thematic stand "Thermometer"
10. Thematic stand "Collection of precipitation"
11. Thematic stand "Weather"

Thematic stand "Seasons"

12. The device "Ceilometer"

13. The line of measurement of snow cover up to 1 m

14. Table "Weather Station"

15. Magnet-chalk board with a metal structure and a roof

16. Cardinal points

17. Lock on Stevenson screen

18. A set of pots -3 pcs.

19. A set of seeds - 3 pcs.

20. The program of meteorological observations for the whole year "Young weather forecasters"

21. Weather Observation Diary

1.	Name of the project	Weather site in kindergarten
2.	Name of organization	Tsuran Yanovsk infant-primary school State Educational Institution of the Sennensky district
3.	The physical and legal address of the organization, phone, fax, e-mail	The Republic of Belarus, Vitebsk region, Senno district, Ag.Yanovo, Bogushevskaya St., 27; Phone number: 8 (02135) 2-46-18
4.	Information on the organization	The institution has been carrying out educational activities since 1925.
5.	Head of the organization	Burakova Valentina Sergeevna, head master; Phone number: +375 (29) 5148582
6.	Project manager	Kozlova Lyudmila Viktorovna, Deputy Director for; Deputy Director of Education Activity. Phone: +375 (33) 3042015
7.	Previous assistance received from other foreign sources	Didn't receive
8.	The required amount	2300 \$
9.	Co-financing	Tsuran Yanovsk infant-primary school State Educational Institution of the Sennensky district
10.	Duration project	June 01, 2020 (unlimited)
11.	Goal of the project	Organization of the interactive space of the kindergarten. The formation in children of elementary ideas about the weather and its significance in human life.
12.	Objective of the project	* To create a meteorological site in the kindergarten.

		<ul style="list-style-type: none"> * To organize work on the weather site for systematic weather observations. * To give children an idea of the dependence of climate anywhere in the world on remoteness from the Sun. * To form an idea of the significance of weather in the life of man, plant and animal life. * To introduce children to assistive devices: compass, thermometer, barometer, rain gauge, snow meter, sundial, weathercock. * To Introduce the profession of a meteorologist.
13.	Detailed description of the project activities in accordance with the tasks	The target group is preschoolers, first grade pupils .The number of participants is 42.
14.	Project Justification	<p>The process of observing weather events can be made much more interesting by equipping an elementary weather site on the territory of a preschool institution;</p> <p>Classes of young meteorologists, which children perceive as an interesting new role-playing game, will help introduce them to meteorological instruments and how to put them into practice;</p> <p>In the process of project implementation, students will develop research skills (the ability to identify a problem, observe, conduct elementary experiments, analyze, bring acquired knowledge into the system);</p> <p>Practical exercises at the meteorological site will contribute to the development of the emotional sphere of children and their communication skills.</p>
15.	Activities after the end of the project	<ul style="list-style-type: none"> * Pupils will gain skills in using weather monitoring devices; * Pupils will have the simplest ideas about air temperature, atmospheric pressure, wind direction; * Pupils will learn how to solve the new problem “what weather awaits us in the future”; * Pupils will be able to determine the factors that affect the weather changes in our agricultural town.
16.	Project budget	2500 \$
